

MORNING APPEAL

The Cigarette Law.

The law making dealers pay a license of \$50 per month, who sell cigarettes, goes into effect in a few days. It will practically stop the sale of cigarettes by local dealers, but that is all the law will amount to, as there will be just as many of the "cotton nails" smoked after the law goes into effect as before.

Miss Annie Schulz, who has been attending school in San Jose, is spending her vacation with her parents in this city, accompanied by Mrs. Will Weis.

The Mint settlement showed \$9,500,000 in coin and bullion in the Mint. Of this amount about a million and a half is uncoined. The accounts are all straight.

Lakeview strawberries are now in market, and they are far superior in flavor to the California berries. Horace Wells and Furi Rafetto will sell \$1,000 worth to dealers in this city this season.

Nearly fifty million dollars in gold has been paid out in eleven months to redeem coin notes which were issued for silver and redeemable by law in silver dollars. The gold went to Europe and the currency into the treasury.

Those newspaper "straws" indicate nothing. There is a vast difference between repealing the Sherman law unconditionally and repealing it with a silver substitute. All favor the repeal of the Sherman law, but a majority will insist on a silver coinage substitute, and the repeal cannot be accomplished without it.

More Nominations.

TO THE EDITOR OF THE APPEAL:—As you wish the Beauty Contestants to select the judges, our suggestion would be three of the most unprejudiced gentlemen in Carson: Secretary O. H. Grey, Harry Cobb and Hume Yerington. Should any objection be made to those gentlemen, we will name three more, Captain Zabriski, Johnnie Jones and Lawrence Elrod.

Respectfully,

TWO OF THE CONTESTANTS

He Lost His Wife.

Cincinnati, June 27.—L. L. Peterson, a Chicago broker, who has made \$90,000 in hogs in eleven months, applied to the police last night for assistance in finding his wife, who deserted him at Madison, Ind., nine years ago. She was found in a public resort to-day. He gave her a check for \$1200 and asked her \$5000 if she would reform, but she refused.

A Rare Occurrence.

Dividend paying mines are so scarce nowadays that items like the following read like fairy tales: The Standard Consolidated mining company of Bodie has declared a quarterly dividend of ten cents a share, amounting to \$10,000, and payable in New York and San Francisco on July 5th.

White Horse.

News was received at the Gazette office to-day of an exceedingly encouraging character from the White Horse mining district, near Wadsworth. It is said that Johnny Hayes has uncovered a bonanza that is nearly half gold. The Gazette hopes the rumor is correct.—Gazette.

If you are ruptured and wish to be cured, or if you wish a tuss, see Dr. Losey, at Arlington Hotel. Consultation free.

UNDER THE PINES.

A Budget of Information From the Mountains.

The APPEAL has for the past few years devoted more or less space to the logging and lumber camps of Lake Tahoe.

About the liveliest camp at present in operation, is the Incline, that magnificent monument to engineering skill, which carries countless cords of wood four thousand feet up an almost perpendicular mountain side, where it is sent by flume into the valley below.

The work necessary to cutting, assorting and finally depositing this wood in the Lake View lumber yard, gives employment to nearly three hundred men, and the scale of wages paid them is higher than in any other camp on the Lake.

Not a drop of alcoholic "stimulant" is allowed on the timber land of the Sierra Nevada Wood & Lumber Co., and the result is sobriety and good fellowship among the men.

A. Spencer, who has charge of the affairs of the company at present, has always made it a point to give white men the preference in all kinds of work, and the only Chinese employed are in the kitchen.

Spencer's motto appears to be "cleanliness." The grove surrounding the office and running down to the lake shore, is constantly attended by a professional forester, whose duty is to clear away all broken limbs, pine cones and fallen trees, which are burned, thus keeping the place like a garden of pines, and giving it the appearance of a vast and well kept park.

In the evening Spencer gets out a garden hose and wets down a square tract of land around his office to keep the dust down.

He stays with his irrigation scheme clear into the twilight, and only retires when the cool lake breeze drives him under cover.

A good many Carson men are employed, who will find plenty to do until October, during which month the camp will probably be shut down.

Lancelot Thompson, Joe Kennedy, Wm. Remley and L. E. Little have secured a contract to cut 5,000 cords of wood and have 40 men under them, who are rapidly bringing the contract to a close.

A good many of those men have been employed since November, but the season opened a little later than usual on account of the severity of the winter.

By July first the narrow gauge railroad will be in running order and Engineers Charlie Blethen and Lefe Robinson are getting their locomotives in condition for hard work. One train hauls logs from Sand Harbor, making hourly trips, and the other cord wood every half hour.

By the middle of July the entire system will be in full blast and the hills and ravines will resound with hissing of steam, the stroke of the ax and the intermitting crash of falling monarchs coming to earth after facing the winds and storms of the past century.

Gen. Marlette has a 10,000 cord contract to fill. Wade Loufborrow is his book-keeper and manager. Mrs. Loufborrow will soon join and they will remain till the close of the season.

Wade has made himself a favorite with the boys by his singing and violin playing, which he quite frequently turns loose in the evening and on Sundays. Quite often the entertainment is sprinkled with a song by Bill Remley who sings "Comrades" and "Are The Onions Ripe Love." in such a manner as to bring tears to a sheep-herder's eyes. Joe Kennedy and L. E. Little with Charlie Jenkins, once a week render a little dialogue entitled "The Cost of a Calico Dress," written for the occasion by John Davis, formerly of Carson.

Altogether the camp is in a prosperous condition and bids fair to hold out as long as the Comstock, upon which it depends, exists.

Seven million feet of lumber have been cut since 1885, and the average amount of fuel is 20,000 cords of wood per year.

Just as our reporter was leaving the Incline, a telephone message came from Marlette Lake, that four Carsonites had been caught snaking trout and when pursued started across the hills at a suburban pace.

Higgins, the watchman, took 30 fish away from them and they threaten to fill him full of holes. Mr. Higgins, however, is still intact and the Carsonites are still minus the fish. The poachers are strangers to him, but perhaps they themselves can give us further information of the affair.

The Beauty Contest.

The chief feature of the Beauty Contest yesterday was the lead taken by Mrs. Sam Wright. For the first time in the Contest a widow set the pace and took the lead. She had been crawling slowly to the front for some days and her friends determined to push her for first place.

Several parties have been holding back several hundred votes for their favorites and lively times can be expected at the finish.

Nine different gentlemen have been named for judges of the count. Send in your choice. No new entries will be printed after Thursday's issue. After the first ballot box will be deposited at Golden's jewelry store.

The vote now stands as follows:
